INTERNATIONAL SERVICE TRAVEL TRIPS
Passport and What to Pack

Pre-departure Preparation

• Passport
  o Make sure your passport is valid through your trip dates and six months after. If it is not, begin the renewal process. Pay attention to timelines and use expedited services as appropriate.
  o Make extra copies of passport/visas/list of US emergency contacts. Place in envelopes and keep one envelope in each piece of luggage you are taking with you.
  o Keep a copy of your passport with you at all times once in-country.
  o Scan a copy of your passport, CISI paperwork, health insurance card, and a list of any current medications. Give a copy to a trusted individual who will be able to access these in case of an emergency. Your trip leader should know how to contact this individual.

• What to Pack (This is a general packing list – please check with your trip leaders for any additional trip-specific necessities that you should bring along!)
  o Food
    ▪ Consider packing: breakfast bars, dried fruit, nuts, applesauce and other snacks that can remain unrefrigerated.
    ▪ If you are a vegetarian, consider packing more filling snacks. Peanut butter, bagels, etc., may act as a meal substitute if you are in a rural area without many vegetarian options.
  o Clothing
    ▪ Scrubs
    ▪ Raincoat/Umbrella
    ▪ Closed-toed shoes for clinic days
    ▪ Clothing for post-clinic trips (going to dinner, sightseeing, etc.)
  o Non-Medical Items
    ▪ Backpack
    ▪ FannyPack (very helpful during clinic)
    ▪ Sunscreen
    ▪ Insect repellant
    ▪ Toilet paper
    ▪ Wet wipes
- Sunglasses
- Hat
